ONTARIO

NORTHERN ONTARIO TOUR

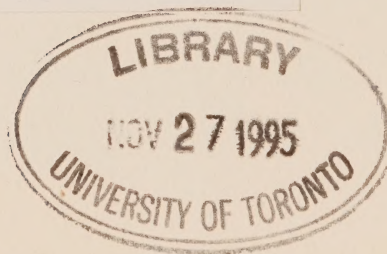

**BY MEMBERS OF
THE LEGISLATIVE ASSEMBLY**

**AUGUST 21st to 31st
1957**

Presented to the
LIBRARY of the
UNIVERSITY OF TORONTO
from
the Library of

A.E.K. BUNNELL

This pictorial record is presented as a souvenir of the tour of Northern Ontario by some 48 members of the Legislative Assembly. The tour was arranged to give members a first-hand acquaintance with economic and industrial developments in key Northern centres.

Entraining in Toronto on the night of August 21st, the legislative party reached Sudbury early the following morning for a full day of mining inspections. They viewed surface facilities of the Falconbridge Nickel Mines at Hardy, Onaping, Fecunia, Strathcona and Longlac. As guests of the International Nickel Co., they visited the Frood open pit and Copper Cliff smelter and watched the pouring of slag late in the evening.

Going on to Spragge the next day, members took buses to Elliott Lake and visited Milliken Lake Mine, Algom Uranium Mine and Consolidated Dennison Mine. Next morning, they enjoyed a motor tour of the Blind River area and called at McFadden's Lumber Division of Huron Forest Products. In the afternoon, they continued by train to Sault Ste. Marie and visited the plant of the Algoma Steel Corp.

On Sunday morning, August 25th, members toured the District Headquarters and Air Service Branch base of the Department of Lands and Forests. At noon, they boarded the S.S. Assiniboia for a pleasant voyage across Lake Superior to Fort William. Monday morning, they inspected grain elevators, iron ore docks and Hillcrest Park; in the afternoon, they relaxed on a harbour cruise. Next day, they toured the adjacent cities and district, touching at Mount McKay, Squaw Lake, Brule Lake, Chippewa Park, Kakabeka Provincial Park and the plant of the Great Lakes Paper Co.

Entraining again on Wednesday, members visited the LongLac Pulp and Paper Co. at Terrace Bay in the morning, and went on to call at Marathon and the Marathon Corp. in the afternoon. On Thursday, they toured the townsite of Manitouwadge and visited Willroy Mines, Geco Mines and the Ontario Paper Co.

On Friday, members passed through White River and continued to North Bay where, on Saturday morning, they were received as guests of the R.C.A.F. Fighter Station. In the afternoon, they visited the plant of the Johns-Manville Co. Early Sunday morning, September 1st, the members detrained at Toronto Union Station after ten full, rewarding days of observation.

During the tour, members were entertained by the Cities of Sudbury, Sault Ste. Marie, Fort William, Port Arthur, and North Bay; by Chambers of Commerce in Fort William, Port Arthur and North Bay; and by the International Nickel Co., Falconbridge Nickel Mines, Milliken Lake Mine, Abitibi Power and Paper Co., Great Lakes Paper Co., LongLac Pulp and Paper Co., Marathon Corp., Ontario Paper Co. and Geco Mines Ltd.
